

"Communication & Collaboration" Training Series

BOUNDLESS COLLABORATION

Conversation + Contribution + Teamwork = Innovation

In this workshop, practice a high-performance collaboration process that can be used in large, complex projects as well as in small groups. Learn key principles that lead to successful results while valuing the contributions of each person.

Sylvia Kahalia Dolena worked for Hewlett-Packard (HP) for 18 years, including as the Global Programs and Operations Manager. She has worked as an external business consultant with HP and other high-tech and retail companies like AMD and Best Buy. Currently, Sylvia delivers workshops and leadership development programs in Hawai'i and nationally. She holds an MBA in Organizational Effectiveness from University of Southern California and an MS in Strategic Management of Technology Organizations from Stanford and the European School of Business in Barcelona.

You will develop skills and tools for successful collaboration in order to:

- Gain alignment on shared purpose and outcomes—great achievement demands being true to purpose.
- Choose from four methods of decision-making—appropriate to each situation.
- Value contribution through brainstorming and idea building—for maximum contribution of each member.
- Identify and remove boundaries—reveal and eliminate sacred cows, limiting beliefs, and other stumbling blocks.
- Overcome resistance—ask questions, listen intently, and use conversation to dissolve resistance.

Friday, June 14, 2019

8:30^{am} to 4:30^{pm}

Hawai'i Innovation Center at Hilo, 117 Keawe Street, Hilo, HI 96720
